## MAY END BIG SUGAR CASE.

Pennsylvania Company is Expected to  
Settle \$30,000,000 Suit.

Philadelphia, Oct. 4.—Brief proceed-  
ings before Judge Willson here Satur-  
day in the \$30,000,000 suit of the Penn-  
sylvania Sugar Refining company against  
the American Sugar Refining company  
indicate that there will be an amicable  
settlement of the case by the so-called  
"trust" when the case was on trial in  
New York several months ago.  
At that time the American company  
offered to pay George H. Earle, receiver  
of the Pennsylvania company \$750,000,  
and to surrender a note given for a  
loan of \$1,250,000 by Adolph Segel,  
promoter of the local concern.  
Counsel for Mr. Earle told Judge Will-  
son Saturday that at a conference of  
attorneys representing all interests it  
was decided to ask the court to postpone  
further proceedings in the matter for  
two weeks, and that it was thought  
the litigation would be settled in the in-  
terim.

STOMACH DISTRESS  
AND DYSPEPSIA GO

All Misery From Heartburn, Gas and  
Indigestion Vanishes and Your  
Stomach Feels Fine Five  
Minutes Later.

As there is often some one in your  
family who suffers an attack of indi-  
gestion or some form of stomach trou-  
ble, why don't you keep some Diap-  
pepsin in the house handy?

This harmless blessing will digest  
anything you can eat without the  
slightest discomfort, and overcome a  
sour, gassy stomach five minutes af-  
ter.

Tell your pharmacist to let you read  
the formula plainly printed on these  
50-cent cases of Pape's Diapepsin, then  
you will really see why it makes indi-  
gestion, sour stomach, heartburn and  
other distress go in five minutes and re-  
lieves at once such miseries as belching  
of gas, eructations of sour undigested  
food, nausea, headache, dizziness, con-  
stipation and other stomach disorders.

Some folks have tried so long to find  
relief from indigestion and dyspepsia  
or an out-of-order stomach with the  
common every-day cures advertised that  
they have about made up their minds  
that they have something else wrong,  
or believe there is a case of nervous-  
ness, gastritis, catarrh of the stomach  
or cancer.

This, no doubt, is a serious mistake.  
Your real trouble is, what you eat does  
not digest; instead, it ferments and  
sours, turns to acid, gas and stomach  
poison, which putrefy in the digestive  
tract and intestines, and, besides, poi-  
son the breath with noxious odors.

A hearty appetite, with thorough di-  
gestion, and without the slightest dis-  
comfort or misery of the stomach, is  
waiting for you as soon as you decide  
to try Pape's Diapepsin.

WASHINGTON NOTES  
OF CONSEQUENCE

Arduous Process of Submitting New-  
foundland Fisheries Problem  
to The Hague  
Tribunal.

Washington, D. C., Oct. 4.—The first  
step in the long and arduous process of  
submitting the Newfoundland fisheries  
problem to the Hague tribunal for adju-  
dication has at last been completed, and  
the prospect of the ultimate settlement  
of this time worn dispute between the  
United States and Great Britain is now  
well in sight. On October 4 the state  
department will submit its side of the  
case. At the same time the British  
government will present its side. Six  
months later the two governments will  
exchange replies, and next summer the  
contending forces of legal talent will  
confront each other before the Hague  
tribunal to argue the case.

This is the most modern method of  
settling disputes which might otherwise  
be decided by force of arms. Although  
the Newfoundland fisheries have never  
given rise to a difference of opinion so  
serious as to endanger the diplomatic  
relations of the United States and Great  
Britain, they have been the source of  
constant petty annoyances which pre-  
pared the diplomatic temper for disagree-  
ment on more important things.

The first broadside in this peaceful  
war the presentation of the case of the  
United States, which has been prepared  
under the direction of Chandler Ander-  
son, consists of three large volumes. The  
reply of the British foreign office will  
probably be as bulky. Before the court  
reaches a decision many more pounds of  
paper and printed ink will be consumed,  
and the combatants will probably lose  
many nights of sleep in their effort to  
gain the tactical advantage.

It is expected that the decision will  
lay for all time the ghost of trouble  
arising between Canada and the United  
States through their contiguity to the  
same fishing waters.

Laws regulating the taking of fish  
from inland lakes and streams have been  
proposed by an international commission  
of which Dr. David Starr Jordan was  
the American representative, and the  
Newfoundland case will regulate the  
problem on the Atlantic side and dispose  
of the troublesome three-mile limit ques-  
tion.

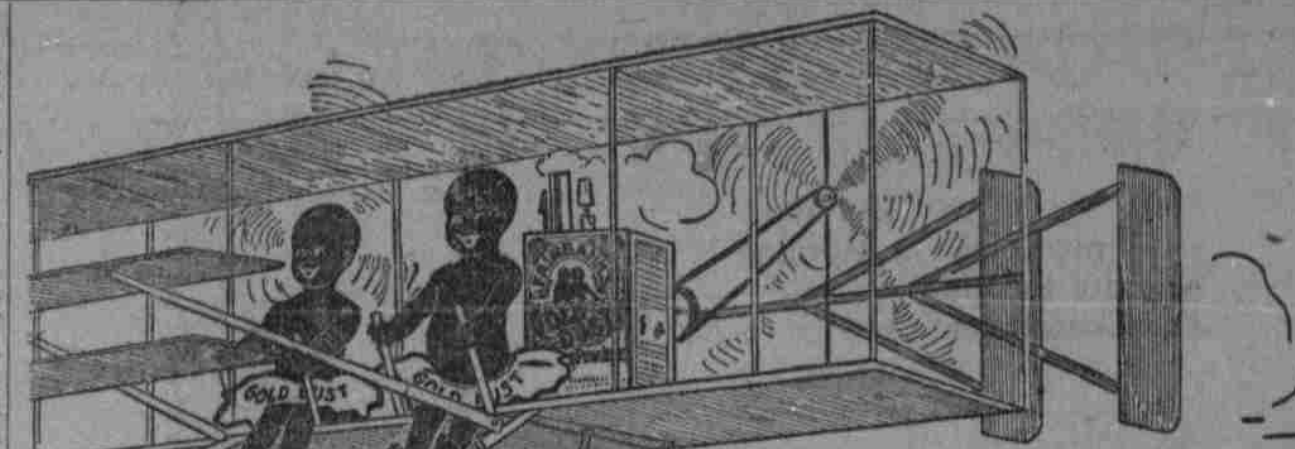

There is a whole lot more involved in  
a change in the office of treasurer of  
the United States than in the mere ac-  
ceptance of the resignation of the retiring  
officer and the appointment of his  
successor. When President Taft accepted  
the resignation of Charles H. Treat,  
whose name appears in the bottom right-  
hand corner of all United States bills,  
and announced that Lee McChung would  
succeed him on November 1, it was equiva-  
lent to giving notice to all the clerks  
in the office of the treasurer that they  
had three months' extra hard work ahead  
of them.

This comes from the fact that before a  
new treasurer of the United States takes  
charge of the office he has got to be  
satisfied that all the money and trust  
funds held in the treasury department are  
there down to the very last fraction  
of a cent. Consequently, every dollar  
of the vast hoards in the treasury has  
got to be counted.

When the last change was made in  
this office it took all of the clerks, twen-  
ty additional laborers specially hired for  
the occasion, a committee of three ap-  
pointed by the secretary, with ten or  
fifteen specially designated aides as-  
signed from other offices of the depart-  
ment, just two months and eighteen  
days to do this counting and to com-  
pare the figures thus obtained with  
those carried upon the books.

This is not so very surprising when  
it is realized that the aggregate amount  
of money and securities which are held  
in the office of the treasurer reaches the  
stupendous total of \$1,900,283,117.51 2-3.  
That fraction of a part of a cent which  
has been carried along in the treasury  
books for many years arises from the  
interest of a Louisiana state coupon  
bond which carried 7 per cent.

All of this great wealth is held in  
thirteen vaults beneath the treasury de-  
partment in this city. Vault No. 1 is  
50 feet long, 51 feet wide and 12 feet  
high. It is packed to the doors with  
bags each holding one thousand silver  
dollars and contains a total of 105,000,  
000 silver dollars. But even this enor-  
mous amount does not represent all of  
the silver and gold held by the treas-  
ury, there being over fifty million more  
stowed away in two other vaults. Gold  
certificates to the value of \$146,963,250;  
United States notes to the amount of  
\$20,834,652; self-certificates to the  
amount of \$33,280,000; gold coin to the  
value of \$9,469,032; national bank notes  
in process of redemption, worth \$20,  
645,203; and subsidiary silver minor coin,  
\$45,203, and subsidiary silver minor coin  
brings the total in twelve of the vaults  
up to \$455,823,834. In the remaining

The Right Brothers  
For Cleaning

Cleaning this and scrubbing that, by the old-fashioned muscle  
method, steals at least one-tenth of your life. Why not let the Gold  
Dust Twins relieve you of all the "effort end" of your work?

Gold Dust and water will clean anything cleanable—will per-  
form cleansing miracles. A strong solution will cut the thickest  
grease from floors, stoves, pots, pans, sinks, etc. With a mild  
solution, you can take all the hard work out of washday. Most  
people use too much Gold Dust, so we advise following directions  
given on each package, in order to prevent waste. Gold Dust is  
the most economical cleanser in the world, and will do more work  
and better work in less time than any other cleansing product.  
Try it for your own satisfaction and home-comfort!

Do not use Soap, Naphtha, Borax, Soda, Ammonia or  
Kerosene with Gold Dust. Gold Dust has all desirable  
cleansing qualities in a perfectly harmless and lasting  
form. The Gold Dust Twins need no outside help.

## "Let the Gold Dust Twins do your work"

vault, No. 7, there are bonds the total  
value of which reaches the enormous fig-  
ure of \$744,439,283.51 2-3. These are  
held by the treasurer as security for  
national bank circulation and for de-  
posits of government departments; mis-  
cellaneous trust funds and the sinking  
fund of the District of Columbia.

Every item of these giant totals has  
to be verified before a new treasurer,  
who is a bonded officer, is willing to as-  
sume responsibility for the figures as to  
the amount of money on hand which is  
turned over to him by his predecessor.

It would, of course, be an interminable  
job to count singly the 136,374,453 silver  
dollars, so they are counted by weight.  
It is known to a fraction of an ounce  
how much each bag supposed to contain  
1,000 silver dollars, should weigh. So  
bag after bag is placed on scales by the  
bucky colored laborers under the super-  
vision of an officer of the treasury. If  
the bag is light it is opened and a count  
of its contents is made. Among the thou-  
sands of bag weighed it has sometimes  
happened that shortages to the extent  
of a dollar or two have been found. On  
one occasion a member of the colored  
force, probably overcome by the knowl-  
edge that he was handling such vast  
wealth when he was only drawing \$2  
a day pay, had the nerve to abstract  
several dollars from several bags. Alto-  
gether, he stole about \$30, but he was  
caught at the proceeding and not only  
had to disgorge, but served a term in  
prison as well.

The silver is handled just like so many  
bags of wheat. Just as each one is  
weighed from one vault it is packed up  
in a pile in another. The bundles of  
notes before being put into the vault  
have been most carefully counted bill  
for bill and the number in each package  
marked on the outside of the sealed  
wrapper. These seals are carefully ex-  
amined and if they are found unbroken  
the package is passed as intact. If  
there is the slightest abrasion of the  
sealing, the package is undone and the  
contents counted over again.

As stated, it took very nearly three  
months to make the count when the  
present treasurer, Mr. Treat, received  
the trust from his predecessor, Ellis H.  
Roberts. At that time—September 18,  
1906—the amount involved was even  
greater than that which will pass from  
the custody of Mr. Treat to Mr. Mc-  
Chung. The transaction then was closed

by the passing of the following receipt  
from Mr. Treat to his predecessor:  
"Received from Ellis H. Roberts, retir-  
ing treasurer of the United States, gov-  
ernment funds and securities amounting  
to \$1,239,398,278.35 2-3, for which re-  
ceipts in triplicate have been given,  
September 18, 1906." The receipt also  
included the amounts under the various  
descriptions of money and bonds.
